ALLARD ANNOUNCES GRANT RENEWAL FOR SCHOOL OF MINES RESEARCH PROJECT

WASHINGTON, D.C. - U.S. Senator Wayne Allard (R-CO) announced Monday that the Department of Energy has renewed its grant of more than \$100,000 to the Colorado School of Mines for the study of chemically modified inorganic membranes.

“I am pleased to announce this latest installment of funding for the Colorado School of Mines,” Senator Allard said. “The School of Mines continues to set a high bar for excellence in education and research.”

This year, the School of Mines will receive \$102,000 for the continuation of their research. This grant is a part of more than \$1.1 million that has been previously awarded for this project. The current level of funding is planned to continue until 2007.
